```
participates in amiloride-sensitive sodium channel activ

J. Cell Biol. 119:1497-1506(1992).

-:- FUNCTION: IS PART OF A MULTIMERIC COMPLEX WHICH IS I

AMILORIDE-SENSITIVE SODIUM CHANNEL ACTIVITY.

-:- SUBCELLULAR LOCATION: Membrane-associated.

-:- TISSUE SPECIFICITY: KIDNEY, PROXIMAL INTESTINE, OOCY
TO LESSER EXTERNOLUTES DISTAL INTESTINE, STOMACH
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       Staub O., Verrey F., Kleyman T.R., Kraehenbuhl J.-P.;
